LOOKING FOR A ROLE IN A MONTESSORI EARLY YEARS SETTING?

We share job advertisements on behalf of settings playing an active role in our Montessori Global Education Network.

If you're looking for a role for yourself, or if you're a member of the Network and have a role you'd like to advertise for your own setting, [click here to access our external vacancies page](#) and find out more.

TELL US WHAT YOU THINK!

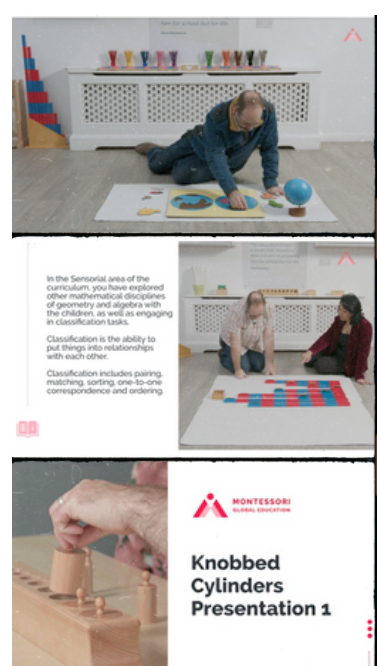

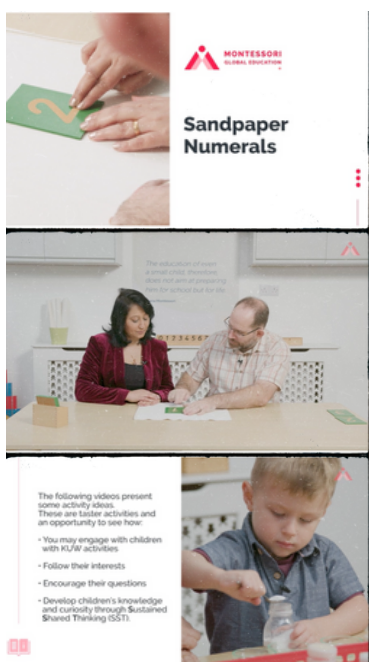

As we continue developing the network and the insight it provides, we want to tailor resources so they speak to your areas of interest and meet your professional development needs. The network will provide a genuinely engaging and enlightening online space for our members.

You can play a direct role in making this network a truly user-led space of learning for the early years community. [Click here to complete our network survey.](#)
