

NETWORK IN FOCUS

January/February 2024

In 2024, Montessori Global Education celebrates our 70th birthday! Although we have experienced many changes over the years, our core belief has never wavered: We believe that a Montessori education provides the best foundation for children to thrive and reach their full potential.

We remain fully committed to our mission that Montessori will be available wherever it is needed. We believe that Montessori is for everyone, and that Montessori learning is for life.

Over the course of this anniversary year, we're redoubling our efforts to lead Montessori education into the future. This celebratory year, we're bringing you a range of exciting new developments including:

New events and innovative resources for educators, enhancing their expertise and ambition to offer access to Montessori, wherever they are.

Our *70 for 70th* drive - reaching our goal of 70 Host Centres across the globe, all delivering our tried and tested Montessori training.

Dissemination of international grassroots innovations in child-centred practice, promoting equitable access to Montessori-inspired learning.

An enhanced, free Montessori Network which truly engages educators of all kinds, parents and children.

So come with us on our journey this year! Be a part of our Montessori mission to transform how we learn, teach and lead - for the next 70 years, and beyond.

BECOME A HOST CENTRE IN 2024

Read our Network article about our *70 for 70th* drive, and find out about our celebratory special offer to potential Host Centres - click the button on the right.

HEAR FROM A HOST CENTRE

“MCI professional training helped our team to understand child development better, identify individual needs, and tailor their teaching strategies accordingly” **[Click here to read more from Vincerola Academy in Germany](#)**

New Storytelling Resource

National Storytelling Week runs until 4th February in the UK, and we're sharing a new FREE storytelling resource. It's for anyone who wants to engage children in storytelling that truly supports their holistic development.

Storytelling and story reading are wonderful, effective tools which all early years educators and primary caregivers should use to support, improve and develop children's emerging literacy skills and language development.
